will find every section and locality has its population of farmers who make it their basiness to put in just as many days at the ciliare store, as they possibly can, and many of these farmers complain of searcity of money, while the yleave hundreds of dollars beneath the surface of their fields every year. It is truly astonishing how little interest many farmers manifest in their iver peoperaty, those farms well farmed and out or dolb't reself in their iver peoperaty. Once farms well farmed and out or dolb't reself in their iver peoperaty their common to dolb't reself in their iver peoperaty their common to dolb't reself in the busy merchant thrives soon finds the busy merchant thrives soon finds the farm run down the fance rows brushy, and owners hopelessly swamped with lebts. The thrifty well and once "well-fixed farmer" becomes the tenant. I have seen mone with two or three grown boys living on farms from 80 o 100 acres have no employment half the time. Their boys work by the day, and the father whittles store boxes and smokes olgars, when they could a loe and keep from two to three hands busy a farmer with noof.

Although living on a small farm, anys a farmer with up to the National Stockman and Farmer. I find that I could keep from iveo to three hands busy all the time could I get them, and some seasons we could a get them, and some se

busy all the time could I get them, and some seasons we could climate can penetrate the Sahara a in a few years accomplish a marvele get them, and some seasons we could employ a dozen with profit. Summer and winter I never saw the day when I had nothing to co, and the more I have to do the get done the more I have to do the get done the more I have to do the I had nothing to co, and the more I get done the more I have to do the next season. My wife says we hire the whole commonity in summer to have something to hire them to work at in winter. And it is virtually so. And not many day go by without we have help. But overy year has shown us some profit; and success has only been attained through close application of head and hands, and a fair arrangement of the hired work done.

In making money on the farm don't go by spurts like a vest weather spring but hostle along all the year. Have something of many varieties to dispose of. Have everything done at the proper time. When once you have a common to done the more of the mired work done and it costs more money to keep a horse poor than it does to keep them of the desert, in selection, establishing taget dense to keep them of the desert, in selection, establishing themselves at points where they are conomizing to keep a horse poor than it does to keep them of the desert, in selection, establishing themselves at points where there are no say that it was a waste of time to clean a horse.
